30th May 1924.

My dear Mr. Mirza,

As promised through the telephone, I send you two copies of the draft letter relating to the Subsidy question which I have now worked up for final submission to His Highness. In this draft letter, I have carefully considered your draft which you handed over to me in Mysore, and in presenting the case, I have bestowed laborious attention to all its aspects. As suggested by you, I have prepared two appendices. I hope to be able, at the interview His Highness is going to grant me on Monday next, to explain the main features of the draft and the main points which have been brought out in relief. I shall also explain to you in person the reasons why one or two of your suggestions have not been embodied, particularly the one relating to the interest of five lakhs on the cash contribution to War expenses. In one of the drafts, indication is given in the margin, in pencil, as to the origin of the context which I hope you will find convenient for reference.

Yours sincerely,

Amin-ul-mulk
Mirza M. Ismail, O.B.E.,
Private Secretary to His Highness
the Maharaja of Mysore,
Mysore.
